Sajede Shirkhani

+989339181589 | sajedeshirkhani22@gmail.com | sinshr.ir | Mashhad, Iran

Full-stack developer skilled in **PHP (Laravel, Yii2) & JavaScript (React, Node.js, Express)**, with experience building real-world projects. Looking for internship or junior developer opportunities to grow within a team and keep learning modern web technologies.

EXPERIENCE

Full-Stack Developer
Dec. 2024 – May. 2025

Peptina
Mashhad, Iran

- **Designed and developed a full-stack accounting system** in Laravel, including database schema design based on requirement analysis.
- **Implemented core financial modules**: transaction recording, invoicing, and reporting dashboards.
- Built a responsive, dynamic frontend using HTML5, Bootstrap, and JavaScript.
  Technologies Used: Laravel, JS, HTML5, Bootstrap

Software Developer Intern (Database Optimization)
Oct. 2025 – Jan. 2026

Hotel Homa
Mashhad, Iran

- **Identified and fixed inefficient queries**, reducing the number of database calls per query significantly
- Redesigned parts of the databased schema, removing redundant data, **Shrinking storage usage by ~20%**
- Collaborated with senior developers, Documenting and testing databse changes.
  Technologies Used: MySQL, PHP, SQL, Query Optimization, Database Schema Design

PROJECTS

Dana AI Assistant
Live Demo

Full-Stack Development, Node.js, Express, React, PostgreSQL, Prisma ORM, JWT

- Built a full-stack AI-powered study assistant with secure JWT authentication, integrating GPT-4.1 to auto-generate flashcards and quizzes from uploaded learning materials.
- Designed the data layer with PostgreSQL and Prisma ORM, deploying the frontend and backend via Render and Supabase.

Vira Online Bookstore
GitHub

Full-Stack Development, PHP, MySQL, TailwindCSS

- Developed a lightweight, modular online bookstore platform using PHP, MySQL, Composer, and Tailwind CSS, featuring a custom routing system for maintainability and scalability.
- Implemented book browsing and search by title, author, and genre with a responsive UI to improve content discovery.

Focus App – Productivity Management Application
GitHub

Front-End Development, React, JavaScript, TailwindCSS

- Developed a productivity application in React.js, implementing task management, Pomodoro/Stopwatch time tracking, calendar planning, and note-taking in a unified interface.
- Built task creation, editing, and tracking features alongside a responsive UI using TailwindCSS and reusable React components.

EDUCATION

Associate: Software Engineering
2023 – 2025

Alzahra University
Mashhad, Iran

- **Coursework**: Data Structures, Operating Systems, Databases, Web Programming, Network Security, Digital Circuits
- **GPA**: 18.3

Bachelor: Software Engineering
2025 – Present

Alzahra University
Mashhad, Iran

- **Coursework**: Algorithm Design, Databases, Discrete Mathematics, Machine Language & Assembly, AI

SKILLS

Frontend : JavaScript, React.js, HTML5, CSS3, TailwindCSS, Bootstrap

Backend : PHP, Node.js, Express, Laravel, Yii2, JWT

Tools & Databases : Git, Vite, Composer, Prisma, MySQL, PostgreSQL
